Heart and Lungs

Heart and lung ailments are assessed with regard to the limiting of the functional capacity caused by the ailment, applying the following division into function groups:

- 1. No limitation of physical activity 3

- 2. Minor limitation of physical activity. Symptoms appear only during strenuous activity 20
- 3. Considerable limitation of physical activity. Symptoms also appear during low levels of activity 45
- 4. Any form of physical activity produces symptoms, which can also be present during periods of rest 70

Steps are taken to support the division into functions by means of objective measurements for lung function, such as the forced exhalation volume in the first second, FEV 1.0.

Assuming that the case is one of permanent reduction of FEV 1.0. FEV 1.0 of over 2 litres corresponds roughly to function group 1, FEV 1.0 of 1.5-2 litres corresponds roughly to function group 2, FEV 1.0 of about 1 litre corresponds roughly to function groups 3, and FEV 1.0 of about 0,5 litre corresponds roughly to function group 4

However, they also acknowledge that, depending on the location of the port and the type of the vessel, a full implementation of the provisions contained, specifically, in the text of Articles 3.1 and 3.2 may imply prior contact between the Company and various third parties, such as Charterers.

Therefore, where such communication between the Company and respective third parties is necessary, the parties agree that the full implementation of the provisions of Articles 3.1 and 3.2 shall be deferred for a transitional period to be identified in each specific case between the parties of the CBA.

Such deferment shall not be longer than 1st January 2020 for container vessels operating in the following areas; Baltic Sea, Canada, North Europe and West Europe excluding Mediterranean Sea (European sub-regions as defined by the European Union).

During any deferment of Articles 3.1 and 3.2 as identified above the following provisions shall apply:

- 3.1 Neither ship's crews nor anyone else on board whether in permanent or temporary employment by the Company shall carry out cargo handling and other work traditionally or historically done by dock workers without the prior agreement of the ITF Dockers Union or ITF Unions concerned and provided that the individual seafarers volunteer to carry out such duties, for which they should be adequately compensated. For the purpose of this clause "cargo handling" may include but is not limited to: loading, unloading, stowing, unstowing, pouring, trimming, classifying, sizing, stacking, unstacking as well as composing and decomposing unit loads; and also, services in relation with cargo or goods, such as tallying, weighing, measuring, cubing, checking, receiving, guarding, delivering, sampling and sealing, lashing and unlashng.
- 3.2 Where a vessel is in a port where an official trade dispute involving an ITF-affiliated dock workers' union is taking place, neither ship's crew nor anyone else on board whether in permanent or temporary employment by the Company shall undertake cargo handling and other work, traditionally and historically done by members of that union which would affect the resolution of such a dispute. The Company will not take any punitive measures against any seafarer who respects such dock workers' trade dispute and any such lawful act by the Seafarer shall not be treated as any breach of the Seafarer's contract of employment, provided that this act is lawful within the country it is taken.

The provisions of Article 3.3 shall apply with immediate effect as written in this CBA.
